The Arbor House Philosophy is based on the belief that each resident is entitled to the highest quality of life through wellness services that work to promote independence, healthy lifestyles, dignity, and a sense of security. The right of each resident to determine his/her need is respected at each level of care, and promoted by providing services in ways that recognize individuals needs and preferences. A partnership exists between residents and staff to promote individual's independence while providing the necessary support to function at his/her highest level.
