MAY 2021

When my daughter Alyssa was born, my mom came to stay with me after three months so I could go back to work. We lived at beach in Southern California and almost every day my mom would put Alyssa in her stroller and load her little dog Pretty Baby in the basket on the bottom and the three of them would walk into the Village for Starbucks. People got to know them and always remarked on how Pretty Baby was so well behaved just lying in bottom of the stroller. She went home to Texas once Alyssa was crawling and I felt more comfortable with her in day care. Mom came and helped me again when we to Washington DC and again, she, Alyssa and Pretty Baby got into the same routine of walking to Starbucks. We were so lucky to have my mom in Alyssa's early years. I could not have done it without her.

Note from the DON, Kristi Burger

Many of our residents' medical care has been managed by Nurse Practitioner Jessica Randall, with direct supervision provided by Dr. Siegfried Kreis. As of April 1, 2021 Dr. Kreis officially retired after finding a physician he could trust to provide the Waco community with a high standard care. Our residents will not see a change in care as Jessica will continue to follow the residents that have selected her as their provider.

Dr Siegfried Kreis passed away on April 2, 2021, at the age of 62, after a courageous battle with cancer. Sig was a proud alumnus of Baylor University, where he graduated with honors and continued on to earn his Master's in education. He then received his medical degree from The University of Texas Medical School at Houston. He committed his life to helping and healing, and touched hundreds of lives while on Earth. His commitment to a better world extended beyond his medical practice, and he was always there to lend a helping hand or words of advice for those who needed it. Sig was an integral part of the medical community, particularly his work with hospice and the nursing homes in the surrounding areas. He committed his life to caring for his patients and residents. The relationships he built with staff, from house-keeping to administrator, was humbling and has produced many lifelong friendships. He encouraged greatness in everyone he met and was a mentor to all who worked with him.

Dr. David A. Brickey, D.O., was born and raised in central Indiana. He entered the United States Air Force after high school. He then served as a medic for four years and continued his undergraduate, Medical, and postgraduate medical studies in the military. In June of 2000 Dr. Brickey moved to Fort Worth and joined the University of North Texas Health Science Center as an Associate Professor of Internal Medicine and Pulmonary/ Critical Care Division Chief. In 2004 He and his wife Linda relocated to Waco. Linda practices as an advanced nurse practitioner of Anesthesia at Baylor Scott & White Hillcrest. He enjoyed a very successful pulmonary and critical care medicine practice in Waco until transitioning to the care of Hospice and Palliative care patients in 2018. He is now active in the Waco and Temple areas serving as the Medical Director for several Acute and Long -Term care facilities. Dr. Brickey joined the Interim Hospice team in 2019. In addition to his role as an Interim Medical Director, he serves as a medical resource for the care of patients with end stage lung disease.
