Our Philosophy

Giving new meaning to Life

The Arbor House Philosophy is based on the belief that each resident is entitled to the highest quality of life through wellness services that work to promote independence, healthy lifestyles, dignity, and a sense of security.

The right of each resident to determine his/her need is respected at each level of care, and promoted by providing services in ways that recognize individuals needs and preferences.

A partnership exists between residents and staff to promote individual's independence while providing the necessary support to function at his/her highest level.

Happy April Birthday

Staff

The birthstone for April is the diamond. For centuries, this stone has signified romance, intrigue, power, greed, and magic. In the Middle Ages, it was used to cure headaches and to create love potions. Today, it symbolizes everlasting love. Formed nearly 100 miles beneath Earth's surface in temperatures that exceed 2700°F, the diamond is the world's hardest naturally occurring substance. It is also the purest of all gemstones, composed completely from crystallized carbon. Its name comes from the Greek word *adamas*, which means "unconquerable."

April Weather Lore

We all know April showers bring May flowers, but have you heard of these April weather sayings?

Cloudy April, dewy May
The louder the frog,
The more the rain
Moist April, clear June
